SAKSHI PAKLE

SOFTWARE DEVELOPER

+91 8830552644 | sakshipakle1@gmail.com | linkedin.com/in/sakshi-pakle | github.com/sakshipakle

PROFESSIONAL SUMMARY

Software Developer with hands-on experience in Core Java, Spring Boot, REST APIs, Hibernate, Spring Data JPA, JDBC, MySQL, and Microservices. Experienced in software application development, debugging, testing, database integration, and software module maintenance. Strong understanding of Object-Oriented Programming, Collections, Exception Handling, Multithreading, MVC architecture, CRUD operations, and RESTful web services. Familiar with Git, GitHub, Maven, Eclipse, VS Code, and Postman.

TECHNICAL SKILLS

Programming Languages: Java, SQL
Core Java: OOP, Collections, Exception Handling, Multithreading
Backend Technologies: Spring Boot, REST APIs, Hibernate, Spring Data JPA, JDBC, Servlet, Microservices
Database: MySQL
Web Technologies: HTML, CSS, JavaScript, Bootstrap, React (Basic)
Tools & IDEs: Git, GitHub, Maven, Eclipse, VS Code, Postman
Concepts: MVC Architecture, CRUD Operations, RESTful Web Services, Database Integration, Version Control
Soft Skills: Communication, Teamwork, Problem-solving, Adaptability

PROFESSIONAL EXPERIENCE

Innovexis (Backed by Intellihire Staffing Solution Pvt.Ltd.) **Jan 2026 – Jul 2026**
Java Developer Intern

- Contributed to Java application development through coding, debugging, testing, and maintenance of software modules.
- Applied Core Java and Object-Oriented Programming concepts while working on assigned development tasks.
- Assisted in developing, testing, and maintaining software modules according to project requirements.
- Debugged application issues and supported maintenance activities to improve software functionality and reliability.
- Collaborated with the development team and adapted to new technologies and tools required for project execution.

PROJECTS

Hospital Management System *Java | Spring Boot | MySQL | Spring Data JPA | REST APIs*

- Developed a web-based hospital management application using Spring Boot, Spring Data JPA, and MySQL.
- Implemented modules for Doctor, Patient, Appointment, and Billing management with CRUD operations.
- Developed RESTful APIs for managing hospital data and integrated the application with a MySQL database.
- Applied MVC architecture and exception handling to build maintainable and reliable application components.

Task Management REST API *Java | Spring Boot | Spring Data JPA | MySQL*

- Developed RESTful web services using Spring Boot and Spring Data JPA for task management.
- Implemented complete CRUD operations with centralized exception handling for reliable API responses.
- Applied MVC architecture to organize application components using clean and maintainable coding practices.
- Tested and validated REST API endpoints using Postman.

Food Delivery System *Java | MySQL | JDBC | OOP*

- Designed and developed a Java-based application using Object-Oriented Programming principles.
- Implemented JDBC for database connectivity and MySQL integration.
- Developed modules for order management, delivery tracking, and customer data handling.
- Used SQL queries for database operations and data consistency.

EDUCATION

Bachelor of Engineering in Computer Engineering **Jun 2021 – Jun 2025**
Dr. D. Y. Patil College of Engineering and Innovation, Pune **CGPA: 7.37**

CERTIFICATIONS

- Core Java with AI – Internshala
- Web Development Training – Internshala
- SQL Certification – Internshala
